Edelbrock AVS2 Series™ Carburetor

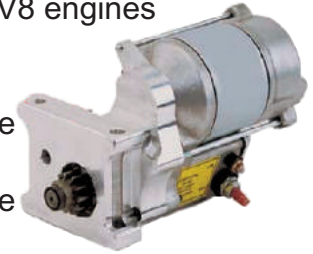

The AVS2 Series is the next generation in Edelbrock carburetors. The AVS2 features annular flow primary boosters with a new calibration for improved off idle and cruising performance. The annular flow booster design delivers improved fuel atomization to eliminate flat spots that may be encountered when the carburetor transitions from idle to full throttle.

650 CFM with Ele Choke **539.95**

Hi-Torque Mini Starters

High-torque, gear-reduction design. Fits Chevy V6, small and big block V8 engines using 153 or 168 tooth flywheels. Mini design results in more clearance and can be rotated for additional clearance. The high-torque, high-output motor spins the engine over faster than stock starters

High Performance Street Motor Oil

Royal Purple HPS Series motor oil is specifically formulated to maximize performance and meet the demands of high performance and modified engines. HPS is recommended for vehicles no longer under manufacturer warranty and for those seeking a higher level of performance and protection.

This unique blend enables HPS to outperform leading synthetics and conventional lubricants for both gasoline and diesel engines. Royal Purple's HPS is fortified with a high level of zinc/phosphorus anti-wear additive and Royal Purple's proprietary Synerlec® additive technology. Available viscosities include: 5W-20, 5W-30, 10W-30 and 20W-50.

Edelbrock Aluminum Cylinder Heads

E-Street™ cylinder heads are an all new line of Edelbrock

heads designed for street performance engines. Manufactured in the USA, by Edelbrock, these heads feature A356 aluminum castings that are heat treated to T-6 spec for superior casting strength and quality. Their modern combustion chamber designs improve the combustion process and larger than stock intake and exhaust ports move more air through your engine. These features improve an engine's efficiency, resulting in more horsepower and torque and improved mileage potential. Dyno tests showed a gain of 16 hp and 11 ft/lbs of torque over our overseas competitor.

Every E-Street is assembled with manganese bronze valve guides, powder metal interlocking valve seats, stainless steel one-piece valves with hardened tips, 1.25" diameter valve springs, 3/8" screw-in studs and guide plates. Additional qualities include hardened spring cups for long-term wear protection and Heli-coil® threaded inserts in the rocker stud bosses for increased strength; these are the details that most low-cost competitors leave out of their heads. All E-Street cylinder heads are sold in pairs and Made in the USA.

**Small Block Chevy or
Small Block Ford
from 1299.95 / pair**

Edelbrock E-210 Aluminum Cylinder Heads

E-Series cylinder heads are a step up in performance from our E-Street line. They feature larger runners for increased airflow, revised exhaust ports and larger diameter springs for higher lift camshafts. Capable of supporting more than 500 naturally aspirated horsepower, and even more in forced induction applications.

Small Block Chevy 1899.95 Pair

Small Block Chevy 383 Stroker Rotating Assemblies

Eagle Street Performance Assemblies offer the perfect balance of performance, reliability, and affordability for engines under 500 hp. Each kit includes a cast steel crankshaft, "SIR" I-beam connecting rods, Speed Pro hypereutectic pistons, plasma-moly rings, and Clevite77 bearings. This kit also includes a street performance harmonic balancer and a 168 tooth flexplate. Standard bore size is 4.000". Kit is available in std bore, +.030, +.040 & +.060. Assemble is externally balanced. Pistons included are flat top (-5cc) and give the following compression ratios:

58cc-11.4; 64cc-10.7; 76cc-9.4
